connected to the answered by a verified nissan mechanic, let me just say i
had the worst f ing experience ever i spent right at 1500 and my car is in
worse condition than it was when i took it to them if i was a white woman
rich i would have had better treatment there is no way they would not try to
make this situation right i had all gasket leak gaskets leak and i was told
that i need a front and back brakes ok i say fix it then i was told i need,
on the nissan is there a swirl chamber code that comes on also if it does
then its truly a egr code but if the code is 1441 and 400 then its not the
egr 400 is the egr system not the egr you r fix and solution is to solve
p1441 the 400 is for function only the failure is 1441 here is the definition
fuel filler cap replace your gas cap and if its the type that click as you
close the cap, listed below are all the adverts placed for nissans within the
