Rutan Long EZ 50 completed 5 000 project for sale, ready 4 assembly. Fuselage, canard gear strakes. Designer Burt Rutan has become world famous for his unique advanced aircraft designs in the late 1970s. His company Rutan Aircraft Factory produced plans for several different types of homebuilt aircraft. One of the most popular is the high performance Long EZ introduced in 1979. The project is designed and engineered around the original 1980 Long EZ plans and pilot operating handbook N79RA. As a result, the VSKYLABS Rutan Longez Owner’s Manual is based on the real Longez Owner’s manual. The manual for the VSKYLABS Longez Aircraft can be downloaded for free. Find great deals on eBay for Long EZ plans shop with confidence. Skip to main content. eBay logo. Long EZ. The Rutan Model 61 Long EZ is a homebuilt aircraft with a canard layout designed by Burt Rutan’s Rutan Aircraft Factory. It is derived from the Varieze which was first offered to homebuilders in 1976. This blog is for entertainment purposes only. The author is not responsible for any accident, injury, or loss that may occur as a result of reading this blog. The Long EZ had a range of 2,010 miles (3,230 km) over twice that of the Varieze. Rutan later revised the Varieze design providing more volume for fuel and cargo resulting in the Rutan Model 61 Long EZ designed to be powered by a Lycoming O-235. Although some have used Lycoming O-320s or Lycoming O-360s, the Long EZ also has a revised wing, the US army has studied it for use in recon and other missions. Various companies have expanded on the design by building a cabin for more occupants. A Long EZ is currently being used to test liquid fueled throttleable rocket engines piloted by Dick Rutan. One designer has converted his Long EZ to a large ducted fan system.
